Legend

M Materials	D Diameter
TL Total Length	TS Tensile Strength
LL Locking Length	A Applications

High Security Seals

Fortified ISO 17712 and C-TPAT-compliant security seals constructed with materials such as steel, airline cables and aluminium to delay tampering. Must be removed with bolt cutters or cable cutters.

Security Seals

Cost-effective, semi-barrier security seals constructed and manufactured of materials that provide limited resistance to intrusion and require lightweight tools for removal.

Indicative Seals

Seals constructed and manufactured of materials that can easily be removed by hand or by using a simple snipping tool or shear. These seals provide highly-visible tamper evidence and easy identification for operation efficiency.

Security Boxes, Labels, Pouches and Bags

Highly customizable, our tamper-evident labels, pouches, bags and boxes are suitable for a range of applications such as ATM cassettes, cash-in-transit and confidential documents and handling carton boxes.

Key Management System

Store and manage your keys in a secure electronic key cabinet

Our Key Cabinet is an electronic key cabinet ideal for storing and managing your keys securely, with a full log of keys being taken and returned. It is based on RFID technology and barcodes so that keys are automatically scanned for quick operations and full traceability.

The Cabinet also provides a full set of data of all keys taken and users in order to increase efficiency and security.

Composite Strapping

Strapping by Mega Fortris provides an efficient load securing solution for a wide variety of applications. This is our co-extruded polyester strapping made from high tenacity polyester fibre materials.

Belt Width	Strength	Meter/Coil
13 mm	480 daN	1100
16 mm	460 daN	850
16 mm	680 daN	850
16 mm	650 daN	800
19 mm	725 daN	750
19 mm	760 daN	600
19 mm	1000 daN	500
25 mm	1260 daN	450
25 mm	1260 daN	500
32 mm	2400 daN	300

Galvanized Wire Buckles

Mega Fortris offers first class buckles perfect for our high quality lashing and strapping products. Choosing the right buckle for the specific job is essential to secure the load and prevent damages.

We are providing a wide range of buckles for different load carriers and load applications that meet international recognised standards.

DUNNAGE AIR BAGS

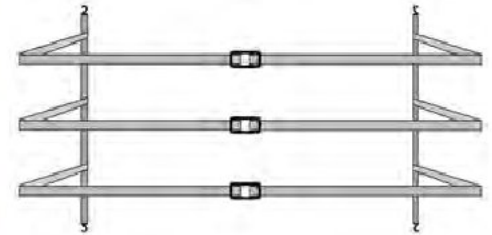

Dunnage Air Bags protect your cargo from sliding, falling, tilting and other forces. Placed in the gaps/void between cargos or container walls and filled up with air, the bags allow no space for the cargo to move at all.

Dunnage Bag	Type	Available Sizes	Filling Pressure
1 ply Paper	Mega Flow Valve	90 x 120 cm	18 kPa 20 kPa
2 ply Paper		90 x 150 cm	
4 ply Paper		90 x 180 cm	
Woven PP		120 x 150 cm 120 x 180 cm	

LASHING

Lashing straps are utilized to tie bulky goods together and to fix them on suitable carriers. In combination with our buckles and fasteners, a reliable connection between product and carrier is established.

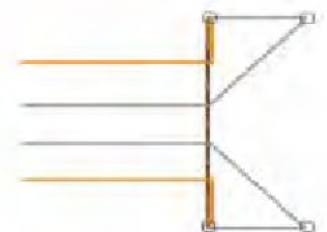

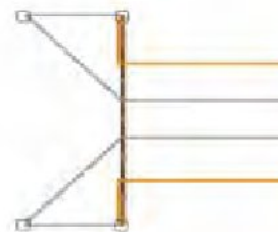

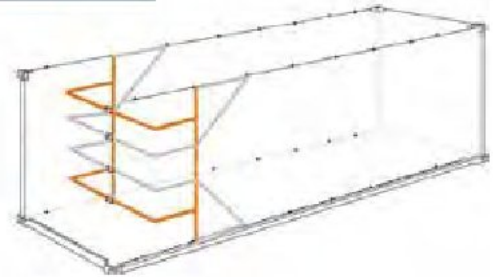

Item	Packaging	Colour	Sizes	Length	Strength
Mega Woven Lashing with Buckles	Rolls Bags	White Orange	32 mm	2 x 125 m	3200 daN 8000 daN
			35 mm	100 m	
			40 mm	200 m	
			50 mm	250 m	

4 – POINT LASHING

The weakest link when securing cargo are the lashing points inside the container. Therefore it is important to use as many lashing points as possible to divide the force between them.

Our system uses 4 lashing points instead of 2 on each side of the container, so we can reach a much higher securing force, as specified in the CTU Code manual.

The IMO lashing system doesn't need hooks for its application to the lashing points, and is not only our strongest, but also most economic version.

CONTAINER SPARE PARTS

- Corner castings ISO 1161.
- Twist locks.
- Doors, hinges, and locks.

WEBBING SLINGS & RATCHETS

Security Boxes, Labels, Tapes, Pouches and Bags

Security Labels

These high-quality adhesive labels reveal tampering/removal, and re-use for security envelopes, cartons and boxes, cash boxes and ATMs and Food and beverage container.

Security Tapes

Security tape is made with highly visible printing on the top surface as a warning to pilferage. The Security Tape provides a clear 'VOID' message on the application when it has been tampered with. Our Security Tape is cold resistant to -40 Degrees, Celsius and is impossible to re-seal once lifted from the surface. Our Security Tape will ensure your packaging meets TSA regulations.

Duty Free Security Bags

Duty Free Tamper Evident bags conform to International Civil Aviation Organisation (ICAO) regulations to enhance airport and duty-free supply chain security.

Cash & Transit Security Bags

Our tamper evident bags have applications including cash deposits/ cash in transits, confidential documents, police/forensic evidence and duty-free shopping bags.

Gold Bullion Security Box

The GB Box can be used to carry a wide range of High Security goods, including Bulk Coin, Cash Handling, Gold Bullion, Jewellery, High Value Retail Goods, Duty Free Goods,

Mega Security Box

The Mega Casino Box is designed for a wide range of applications in the gaming, financial services, retail and police sectors. With easy manual locking, high visibility of tamper attempts and the ability quickly visually inspect the seal and box contents.

Reusable Security Bags

The reusable bag is specifically designed to secure money, confidential documents and sensitive information. When the tamper-evident bag is closed and sealed with the Mega TEBCO DC chamber seal, the security transaction is completed.
